# texture

Sometimes you can feel the brushstrokes on a piece of art. Consumers are longing for art and wall decor that feels authentic and painterly. We are experts at capturing an original piece of art and translating it into print form. Look for landscapes, abstracts and florals with bold brushstrokes and layering to add dimension to your collections.

# city scene

Embrace the urban jungle with art inspired by the big city. From abstracts and cityscapes to music and graffiti inspired works of art, consumers are seeking edgier looks that add a gritty street-inspired vibe. We love this direction and can't wait to see how it evolves.

# hello brights

Need a little pick me up? Art can do that. It started on the runway and it's making its way to the home. Bright colors in every wonderful shade are capturing the attention of designers and consumers alike, who are longing to add cheer and happiness to their homes. We're loving modern abstract collections with bright pops of electric blue, yellow and pink to add an unexpected pop of color into our lives.

*Want to brighten up a neutral space - go for color. Bright color stories can change the mood of a space in an instant. By just adding art, the vibe changes from light and airy, to bold and bright, and all it took was art. Isn't that amazing!*

# spring fling

It's not even winter yet, but we're dreaming of Spring. Wild Apple artists are known for their ability to capture the beauty of flowers in all their glory. Whether you love bright collections and art that pops or softer, more subtle pieces, there is nothing like florals to brighten a room every day of the year.

# earth tones

Stay grounded with color palettes in warm earthy tones. Soft ochre, moss, dusty blues and warm shades of dusty rose fill spaces with easy, nature-inspired collections that help us feel safe, warm and protected.

*Katrina Pete's artwork is a collection of inspired mementoes from her garden, woodland walks, and outdoor adventures with her family. Painting since childhood, she loves incorporating natural elements and light into her watercolor paintings. Her beautiful collections are created with a loose technique that allows the paint to do what it does best, flow and bloom and fade into other colors on the page.*
